

Where is Technology in Your Risk Toolbox?

REC OPE
FOR SUCCESS

SEPTEMBER 12-15, 2017
SOUTH LAKE TAHOE, CA

Discussion points

- Identify applicable technologically driven methods to minimize exposures
- Learn how to seamlessly involve solutions into existing programs
- Increase risk and safety awareness through a realization of new perspectives
- Challenges and opportunities for using technology to enhance ethics and compliance programs and mitigate risk in organizational settings
- Assessing your challenges and potential technological solutions

REC  **PE**
FOR SUCCESS

SEPTEMBER 12-15, 2017
SOUTH LAKE TAHOE, CA

Historically, technology has been used in the areas of risk assessment, training, investigations, and policy management

SEPTEMBER 12-15, 2017
SOUTH LAKE TAHOE, CA

Benefits of adding in technology

- Tracking training compliance
- Report results to stakeholders
- Assign owners to mitigation plans and track progress
- Analyze trends and assess risk areas
- Manage policy development, maintenance and communication

SEPTEMBER 12-15, 2017
SOUTH LAKE TAHOE, CA

Challenges of adding technology

- Outgrowing the capacity of the system implemented
- Evolving risk profile
- Increasingly complex employee base
- Decentralized IT systems
- IT infrastructure that does not keep pace with growth or other technologies
- Competing priorities
- Slow integration efforts

SEPTEMBER 12-15, 2017
SOUTH LAKE TAHOE, CA

Program assessment

1. Step 1: Identify and Prioritize your risk areas and program gaps
2. Step 2: Define your goals – To mitigate risk, to improve a process, to communicate better?
3. Step 3: Get stakeholder input and thus, buy-in
4. Step 4: Scope your effort
5. Step 5: How will you determine success
6. Step 6: Keep an eye on the future
